Notebooks

Paperkraft

As a brand, Classmate has always endeavoured to make learning enjoyable.

Launched in 2003 with an array of student notebooks, Classmate today has a comprehensive stationery portfolio. Ranging from notebooks with the best-in-class paper credentials for a delightful writing experience, premium stationery with sustainable credentials (pens and notebooks), writing instruments (ball, gel and roller pens), mathematical drawing instruments (geometry boxes), scholastic products (erasers, sharpeners and rulers) and art stationery.

Experiencing joy in learning is the most powerful driver of enhancing knowledge & skill, enhancing creativity and critical thinking. Every offering of Classmate comprises features and benefits designed along these lines to create an innovative road to joyful learning.

Classmate has moved beyond being just a notebook to becoming a meaningful partner in a student's learning journey. The brand is reimagining notebooks to go beyond basic functionality by integrating features such as EduGAMES Infinity, which makes daily learning engaging and habit-forming, and Design Discovery, which encourages creativity and skill development among students. These initiatives are aligned with the spirit of the National Education Policy (NEP) 2020, which emphasizes experiential learning, problem-solving, and holistic development.

As education continues to evolve beyond rote learning toward more engaging and joyful forms of learning, Classmate is focused on enabling an ecosystem where notebooks actively support curiosity, creativity, and cognitive development. At the same time, the brand's strong manufacturing backbone ensures that this innovation is supported by uncompromising quality. With ITC's robust sourcing capabilities, strategic tie-ups, and a rigorous end-to-end "shoot-to-sheet" process control, Classmate notebooks deliver consistent, unmatched quality that students and parents can trust.

Every offering of Classmate translates into an innovative way of making learning come alive.
